

THE HUMAN WORKFORCE CREATOR SERVICES

You Bring the Ideas. We Build Your YouTube Authority.

AI-produced. Human-approved. Ten minutes of your time each week.

You Built the Expertise. You Don't Have Time to Be a YouTuber.

Your clients are researching who to trust on YouTube right now. But scripting, filming, editing, writing, and posting is a full second job — one that competes with the job you're actually good at.

*The old fix was four separate vendors who don't talk to each other.
There's a better way.*

No time to film or edit

**Four vendors, four
invoices**

**Inconsistent posting stalls
growth**

**Generic content erodes
trust**

Why AI Changes the Economics of Content

THE OLD MODEL

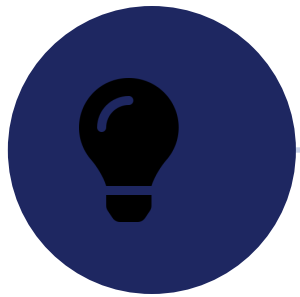

- ✗ Hire a videographer
- ✗ Hire a separate editor
- ✗ Hire a writer for scripts
- ✗ Hire a social media manager
- ✗ Manage four handoffs yourself
- ✗ \$6,000-\$15,000+/month, uncoordinated

THE AI-FIRST MODEL

- ✓ One idea from you — a voice note is enough
- ✓ AI drafts scripts, video, audio, and graphics
- ✓ A human reviews everything before publish
- ✓ One invoice, one point of contact
- ✓ Content ships every week, on schedule
- ✓ Starting at \$997/month, fully coordinated

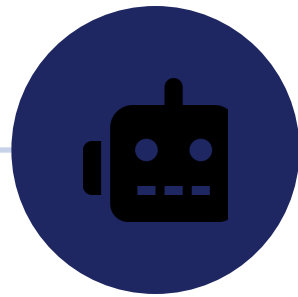

One Idea In. A Full Week of Content Out.

Send a thought, however it comes to you. We turn it into everything your channel needs.

If your business runs on trust, and your time doesn't scale — this was built for you.

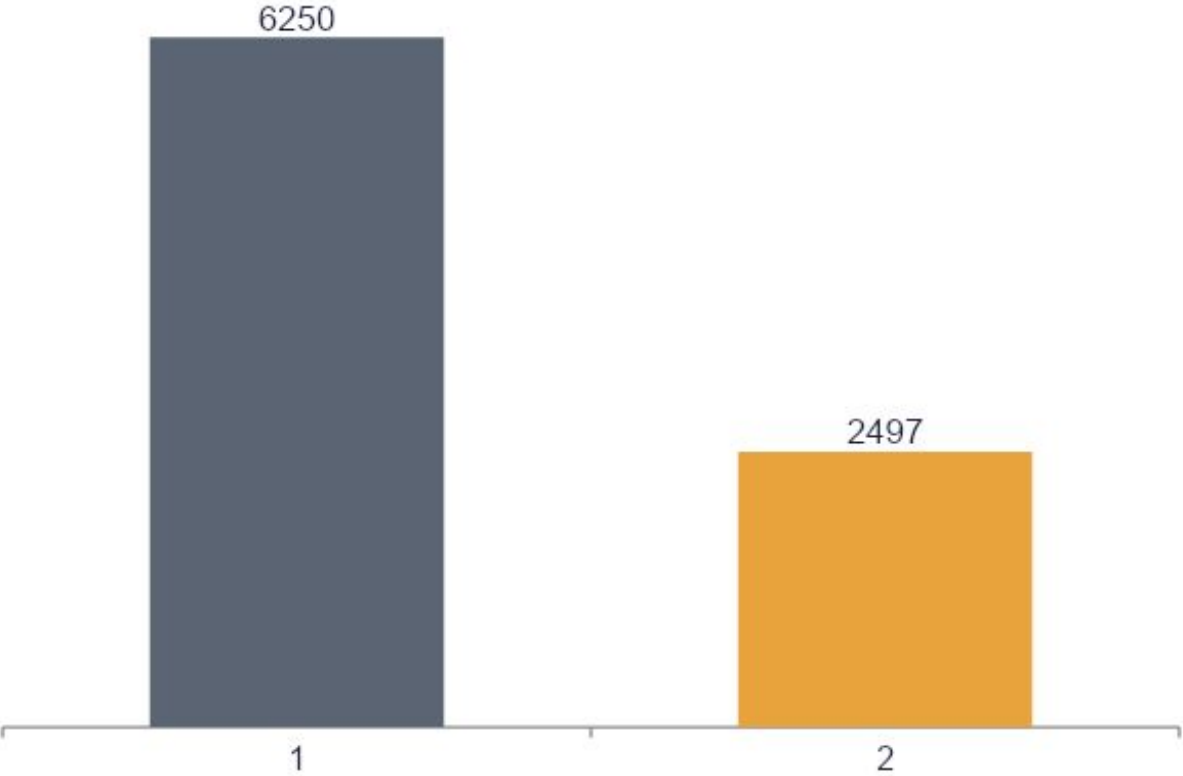

*You don't need to be a YouTuber.
You need to tell the truth about
what you already know.*

Every client question, every mistake you watch people make, every way you'd explain your work to your own family — that's a story. We turn your ideas into stories that show people the skill they already trust you for.

Assembling this yourself means four vendors and four invoices. We replace all of them.
